Disinfection Service, Deep Cleaning
Hygiene Services & Pest Control

Reg No: 2008/005204/23

TIM 73

General Projects

Strategic consultation and insights

Advanced cleaning and hygiene advice from industry-leading experts, resulting in healthy and welcoming environments

Strategic advice meets best-in-class technology, procedures and training.

Every partnership begins with a constructive dialogue, covering:

- Scope of work
- Risk assessments
- Logistics mapping and timing
- Commercial terms

An important part of this consultation is to establish which surfaces are to be cleaned and the appropriate chemicals to use.

A solution tailored to your needs, formally identifying:

- Surfaces to clean
- Appropriate chemicals to use
- Appropriate technology

Reg No: 2008/005204/23

Full transparency on service operations and outcomes

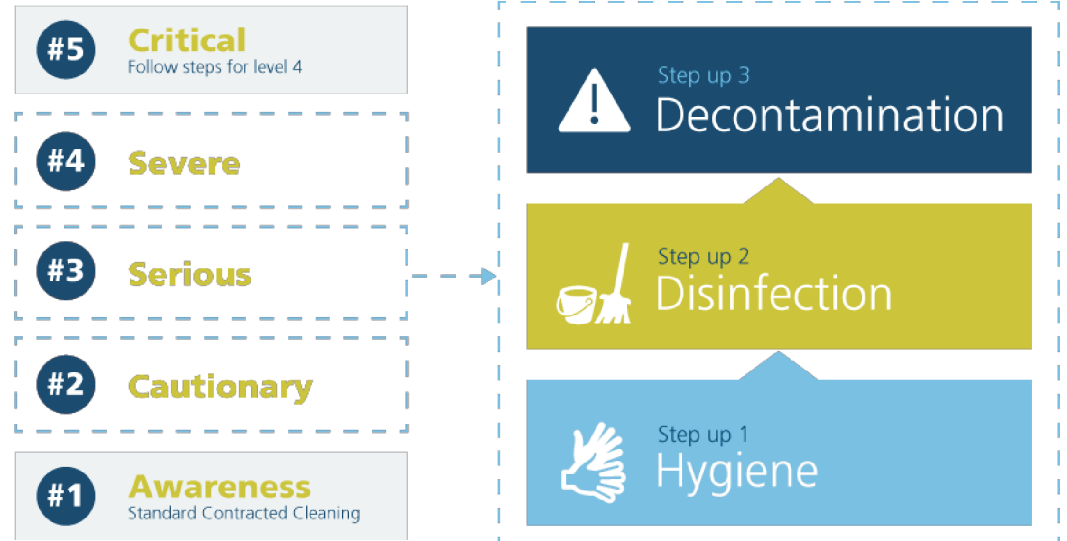

Data and information to make informed decisions for your business

The right solution for your workplace, taking into account:

- Effectiveness based on level of severity
- Risk of future virus/bacterial resistance
- Sensitivity of special equipment or materials, such as electrical gear, works of art, hardwoods
- Results from our mandatory precleaning test on small surfaces

Cleaning that matches the severity level at your workplace – and lives up to local regulatory standards and governmental guidance.

- Step-up cleaning: high-frequency cleaning to disinfect high-touch or high-footfall areas
- Deep cleaning: comprehensive, specialized cleaning

We are now Certified members of SAPCA, NCCA, PBEH and The Contract Cleaning National Provident Fund.

Consistency across your real estate portfolios

A consistent approach tailored to local regulatory standards

Global consistency, locally tailored solution:

- Tim 73 General Projects Global Standard Operating Procedures specifically designed for step-up and deep cleaning
- Account manager guidance and insights on cleaning outcomes across your real estate portfolio
- Local General Projects teams trained in global best practices while well-versed in local legislation or individual customer policies

Reg No: 2008/005204/23

Preventing Pest Problems in Office Buildings and Homes

Carefully evaluated to assess the pest risk
and develop a customized pest program.

We apply Integrated Service Programs

As an expert in pest control, Tim73 (Pest Control) understands the needs of those working in the public sector, regulated environments and non-profit organizations. With public buildings to run, public and government offices to manage, government organizations operate some of the country's largest property portfolios. They also have statutory obligations to find value in all the services they buy.

Reg No: 2008/005204/23
